## FACULTY OF ENGINEERING

Effective **September 1, 2013**, revise the prerequisites for ECE 4457A/B.

### Electrical and Computer Engineering 4457A/B – Power Electronics

The use of power semiconductor devices in converter structures (topologies) to process and control the flow of electric energy. The aim of the course is to familiarize students with various power electronic converter topologies and their applications.

Prerequisites: ECE 2233A/B, ECE 3333A/B, or MSE 2233A/B and registration in the fourth year of the Mechatronic Systems Engineering program.

3 lecture hours, 3 laboratory hours, 0.5 course

Effective **September 1, 2013**, the names of the Engineering and Management Options be changed to Engineering and Business Options.

- B. Integrated Engineering and Management Business Option
- B. Mechatronic Systems Engineering and Management Business Option
- C. Chemical Engineering and Management Business Option
- B. Green Process Engineering and Management Business Option
- C. Civil Engineering and Management Business Option
- B. Electrical Engineering and Management Business Option
- B. Software Engineering and Management Business Option

Effective **September 1, 2013**, CBE 3317Y – Introduction to Chemical Process Simulation will be withdrawn.

Effective **September 1, 2013**, CBE 3318A/B and CBE 3319A/B will be introduced.

### Chemical and Biochemical Engineering 3318A/B - Introduction to Chemical Process Simulation

This course aims to introduce and to develop student skills on modern methods for simulation of chemical process units. Differential heat balance, mass balance. Energy and material balance methods in process units. Executive systems for overall balance methods. Physical properties, computer packages.

Antirequisite(s): The former CBE 3317Y

Prerequisite(s): ES1050, CBE 2220A/B, CBE 2221A/B, and either CBE 2224A/B or GPE 2218A/B.

2 lecture hours; 2 tutorial hours each week, 0.5 course.

### Chemical and Biochemical Engineering 3319A/B- Introduction to Plant Design and Safety

This course introduces students to chemical processes, analysis and design considering safety, environment and economics. Students will be exposed to fundamental aspects of chemical process design and integration of safety from theoretical and practical perspective. Students will be also provided with detailed review and analysis of major accidents in chemical industry and preventive measures.

Antirequisite(s): The former CBE 3317Y

Prerequisite(s): ES1050. CBE 2220A/B, CBE 2221A/B, and either CBE 2224A/B or GPE 2218A/B.

2 lecture hours, 2 tutorial hours, 0.5 course.

## FACULTY OF HEALTH SCIENCES

### REHABILITATION SCIENCES

Effective **September 1, 2013**, Rehabilitation Sciences 3090A/B and 4090A/B (Special Topics in Rehabilitation Sciences) will be introduced in the School of Health Studies.

**Rehabilitation Sciences 3090A/B: Special Topics in Rehabilitation Sciences**

Selected topics in the area of Rehabilitation Sciences. Topics and course descriptions available in the School of Health Studies office.

Prerequisite(s): Registration in a Rehabilitation Sciences module or in the third or fourth year of the School of Health Studies

0.5 course.

**Rehabilitation Sciences 4090A/B: Special Topics in Rehabilitation Sciences**

Selected topics in the area of Rehabilitation Sciences. Topics and course descriptions available in the School of Health Studies office.

Prerequisite(s): Registration in a Rehabilitation Sciences module or in the third or fourth year of the School of Health Studies

0.5 course.

**DON WRIGHT FACULTY OF MUSIC**

Effective **September 1, 2013**, Music 3858A/B/Y, *Creating Music in the Classroom*, will be introduced in the Don Wright Faculty of Music.

**Music 3858A/B/Y - Creating Music in the Classroom**

In this course students will explore a variety of methods for introducing and developing skills in improvising and composing music for learners of all ages.
