*Students who have taken a 1.0 or 0.5 credit course in introductory statistics at the 2100 level or higher in the Department of Statistical and Actuarial Sciences can substitute that course for Economics 2222A/B towards the module requirements (exception: if the statistics course is being used in another module, no credit overlap is allowed, and students are required to replace Economics 2222A/B with another 0.5 course in Economics at the 2200 level or higher). Students who have completed any other introductory statistics course listed as an antirequisite to Economics 2222A/B must replace Economics 2222A/B with 0.5 course in Economics at the 2200 or 3000 level.

Courses counted towards this module may not be counted towards another module. If you are interested in adding a second module that requires overlapping courses, consult the department about how that issue can be resolved.

Note: Many of the intermediate and upper level courses that can count towards this module have prerequisites. Students should carefully plan their programs of study accordingly.
